How to follow the diagrams

Crocheting involves only a limited number of stitches, but by combining them you can create many different patterns. We have devised a system of symbols for the stitches, and these symbols are used in a pictorial diagram of each pattern or motif. From the diagram you can see the degree of difficulty of each project, and you can tell at a glance how far along you are by checking your work against the diagram. While you may be unfamiliar with this approach to crocheting, we feel sure that, with a bit of practice, you will find it much quicker and easier than a row-by-row description method.

To get your project working smoothly, read the instructions and consult the abbreviations. As you proceed with the aid of the diagram, keep checking back to the CROCHET BASICS section in the end of the magazine for the symbols.

Take, for example, the diagram shown here. Rows or rounds are numbered in lightface; a boldface number inside a loop tells you how many chain stitches to make in that loop. The abbreviation for chain

stitch is ch, or ch st, and the symbol is O. In this sample diagram, you can see that in Round 1 a loop has 6 ch, while a loop in Round 3 has 9 ch. In Round 4, you are working in groups of 9 treble crochets, for which the abbreviation is tr and the symbol is T. Only part of Round 3 is given in detail. That is because the same series of stitches is repeated all the way around. Likewise, only one petal is shown in full detail, because the same pattern is repeated each time. Arrows indicate the direction of work. Note that some patterns will require special symbols, and these will appear alongside the diagram with an explanation.

The additional diagrams - completed work, details of edging, etc. - will assist you in making more advanced crochet projects.

You are now ready to try your hand at any of our lovely patterns. A word of advice: Always read the instructions carefully before you begin. They may contain information on a fancy stitch, or on edging or assembling, that is not shown in the diagram.

Sample gauges for classical threads

Six-cord crochet cotton number	American hook size	Size of swatch
5	7	3" x 3" = 33 dc x 15 rows
10	8	3" x 3" = 36 dc x 16 rows
20	9	3" x 3" = 40 dc x 16 rows
30	10	3" x 3" = 45 dc x 18 rows
40	11	3" x 3" = 47 dc x 19 rows

All about cottons and hooks

There are many types of crochet thread on the market, and several types of hooks. To help you choose the right yarn and the right hook, here is a description of the more common crochet cottons, with their yardage, and a chart of hook size equivalents. Keep in mind that your individual crocheting style may call for a slightly thicker or thinner hook than the one recommended for a specific project.

CLASSICAL THREAD: Six-cord crochet cotton is available in several colors and thicknesses (the higher the number, the finer the thread), and it is tightly twisted. Four-cord, three-cord or uncorded thread is less expensive and easy to obtain.

Each ball weighs 20 grams, or approx. 3/4 of an ounce.

No. of cotton thread	Inter- national hook size	Ame- rican hook size
3 (83 yds)	1.75	4
5 (111 yds), 10 (124 yds)	1.50	8
15 (136 yds), 20 (174 yds), 30 (216 yds)	1.25	10

80 (398 yds)	0.75	14
100 (472 yds), 120 (508 yds), 150 (584 yds)	0.60	16

HOW TO WORK PATTERNS FROM OUR DIAGRAMS

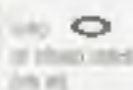

On this page and the next, you will find the key abbreviations and symbols used in our diagrams and instructions. Step-by-step illustrations show newcomers how to work the basic stitches and techniques. Additional abbreviations or symbols needed for a specific project will be included and explained with that pattern.

Note that, in each diagram, rounds or rows are numbered in lightface, while a boldface number inside a loop indicates how many chain stitches to work in that loop.

STENCIL PAINTING ON FABRIC

HERE IS HOW

This is a wonderful way to decorate, particularly for the inexperienced painter. A stencil controls the edges of your pattern, and at the same time protects the areas you do not want to paint. Once you have made a stencil, the design can be repeated as many times as you wish.

TO SELECT MATERIAL FOR STENCIL

You can use any one of the following materials:

- **Cardboard.** You will need a cutter to make your pattern. Since cardboard is somewhat difficult to handle, choose an easy design with simple lines.
- **Bristol or construction paper.** You can cut out pattern with scissors (easier than using cutter), but bristol curls when wet, so you can use this stencil only once.
- **Kraft paper.** Inexpensive and practical for protecting large surfaces, especially when applying spray paint. Can be used only once.

— **Transparent vinyl.** This is the most practical material for stencil making when you want a very elaborate pattern, but too expensive for large-size patterns.

TO MAKE STENCIL

Place tracing paper over actual size pattern and draw all lines heavily with pencil. Tape traced design on a plate of glass. Put vinyl over traced design, fix in place with adhesive tape. Cut out design using cutter or heated tip of a wood burning tool.

TO PAINT DESIGN

When stencil is ready to use, place it over surface to be decorated. Make sure both stencil and fabric are flat. Keep stencil in place with adhesive tape. Paint open spaces as per pattern, using textile paints and a round hard-hair brush. Use paint sparingly so that it does not spread to a protected area.

TO PAINT STRAIGHT LINES

Draw pencil lines with ruler to keep them straight. Place two adhesive tapes parallel to each other, leaving width of line desired uncovered on fabric. Apply paint to uncovered fabric. Remove adhesive tape when paint is dry.

PEAR AND CHERRY PLACEMATS

Designed by Joelle Dreville

SIZE : 13 3/4" by 18 3/4", incl 5/8" hem allowance

MATERIALS : Linen-look spun rayon fabric or fabric of your choice, piece 13 3/4 x 18 3/4" for each placemat. Textile paint that can be set with iron: shades of red, green and yellow, brown, white. Fine round hard hair brush. Materials to make stencil (see **HERE IS HOW**). Palette. Adhesive tape. Ruler. Graph paper. Matching sewing thread.

EQUIPMENT : Iron (do not use steam iron). Sewing machine.

TO MAKE

Enlarge patterns of pears and cherries to actual size using graph paper ruled in 1" squares. Read **HERE IS HOW** and prepare stencils. Paint largest pattern of each set twice, reversing it the second time for symmetry. Use photograph as a guide for positioning designs.

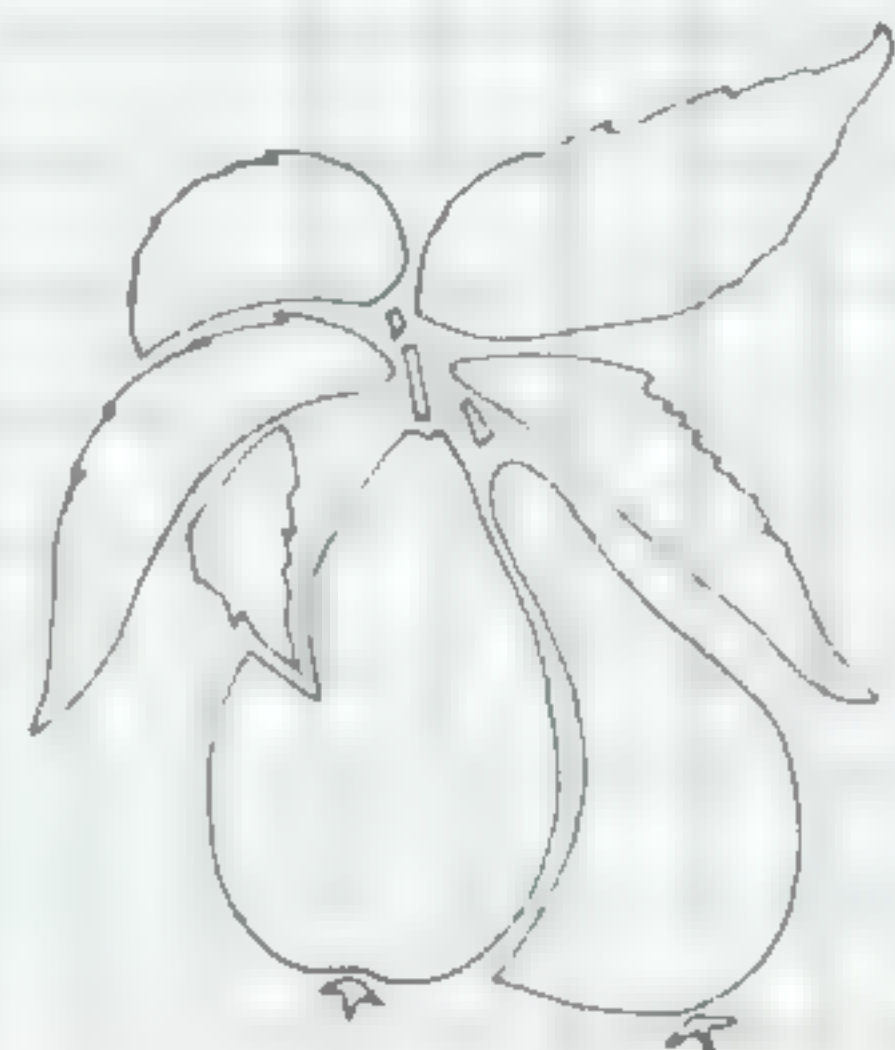

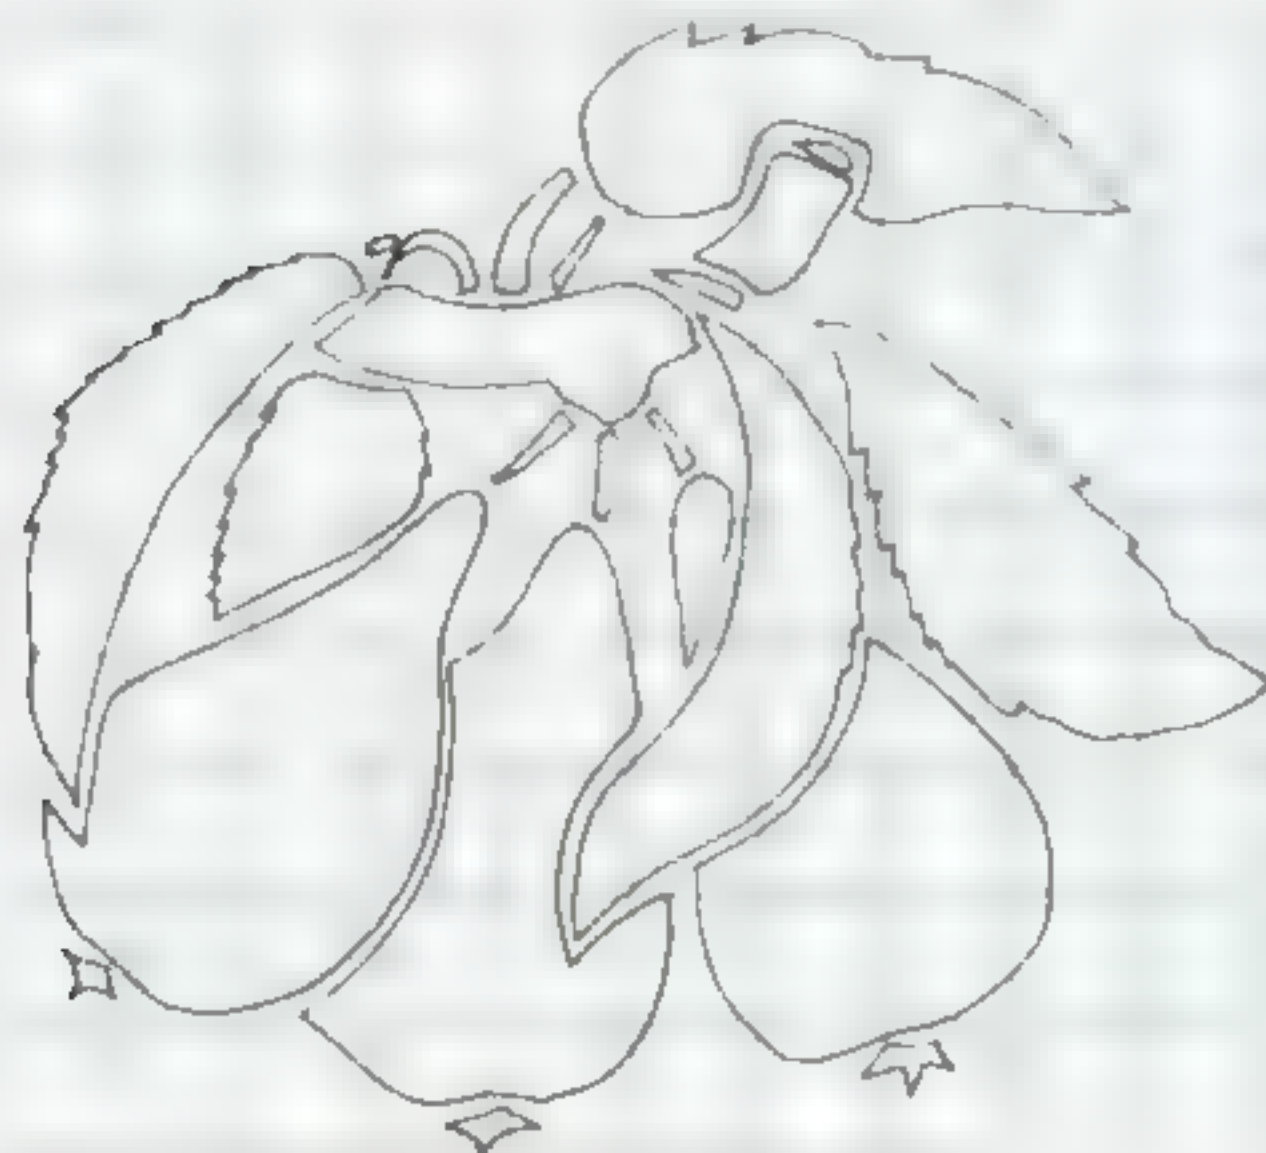

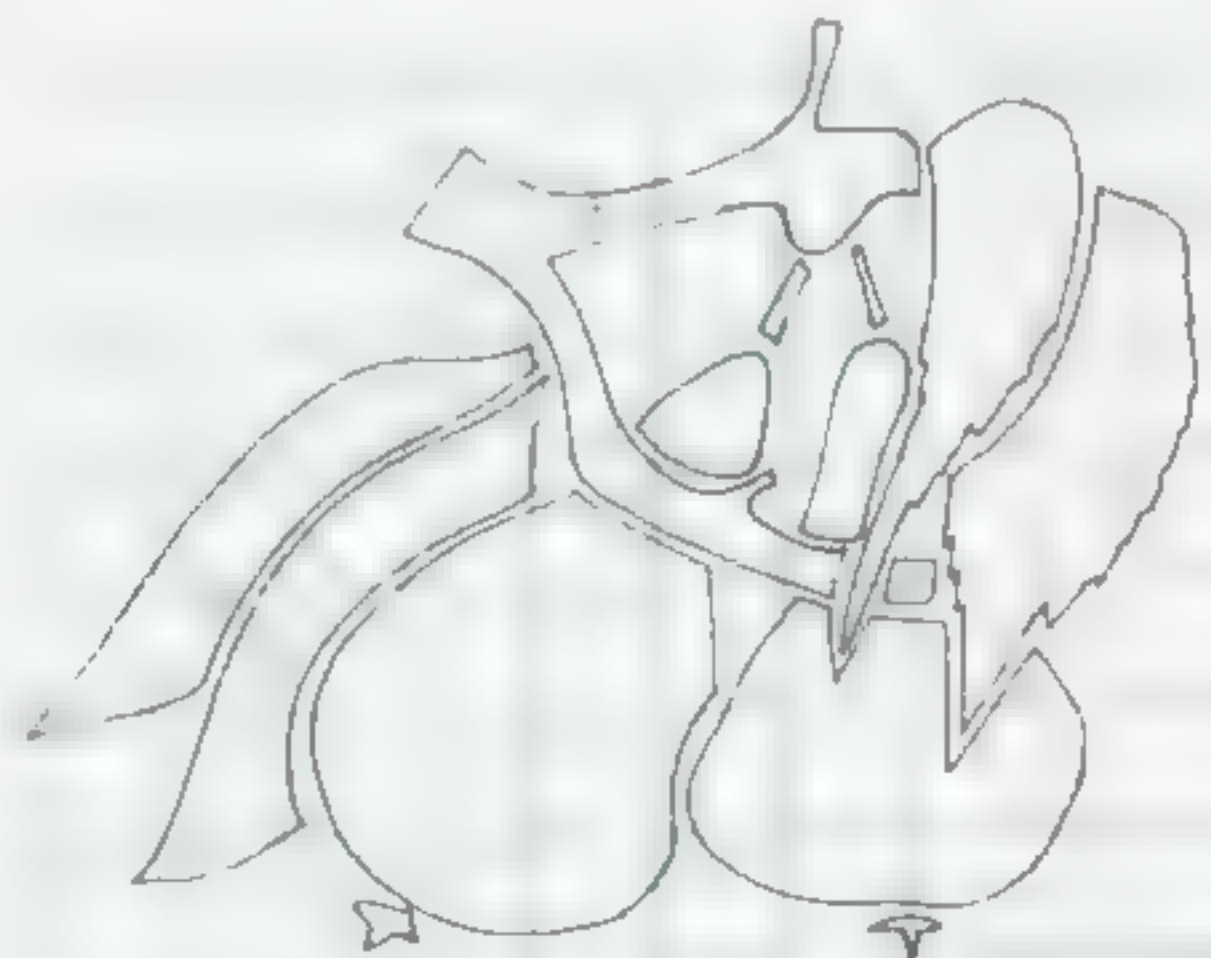

Mix paints on palette to obtain different shades. Vary shading for each fruit and leaf to create reflected-light effect. Read **TO PAINT STRAIGHT LINES** above, trace border ca. 1" from raw edges. Vary shading to paint border.

TO SET PAINTS

Allow paint to dry. Cover placemat with sheet of white paper. Set iron temperature for cotton. Press over paper. Pass iron only once over painted areas.

FINISHING

Turn 5/8" (1" WS) all around, then turn under 1/4" for hem. Baste. Machine-stitch hem. Remove basting.
